## **A Unique Provider**

St Padarn's Chaplaincy Studies programme is a unique development that supports in-service chaplains in their practice and ministry. Our programme will expand your thinking and broaden your awareness of both the theoretical and practical aspects of your work.

St Padarn's Institute is the training arm of the Church in Wales. Under its statement 'formation in community for mission', St Padarn's equips and empowers God's people across the world to communicate God's transformative love. St Padarn's has more than 20 years of experience and an internationally recognised reputation as the UK's leading provider of specialist chaplaincy training.

## **Equipping Effective Practitioners**

The St Padarn's Chaplaincy Studies programme is focused on providing advanced continuing professional development for chaplains but may be suitable for others.

The programme is designed with flexibility in mind to reflect your ongoing professional commitments. The whole MA takes three years part-time, and you can register for that right from the beginning. Alternatively, you can register for the one-year Certificate, and at the end of that year, decide either to carry on to the two-year Diploma, or exit with the Certificate.

Your teaching will be delivered by expert chaplains and academic specialists who have been carefully selected for their ability to equip you for leadership in your role.

The course is validated by Durham University. Durham is one of the Russell Group's 24 world-class research-intensive universities. Alongside our academic focus, we are highly experienced in equipping practising chaplains to be more effective on the front line. We are committed to continuous improvement through student feedback to deliver outstanding training.

At St Padarn's, we offer learning targeted at your specialism. Most of your modules will be studied alongside peers working in the same or a similar sphere. There is also the chance to study alongside chaplains serving in other sectors, for example education, health, military, prison, or sport. We are particularly proud to have held the national Ministry of Defence contract since 1999.

St Padarn's is committed to ensuring that in all policies, procedures, functions, and activities consideration is given to enabling full participation of students with disabilities in all aspects of the academic and social life of the institution.

## A Course for Working Professionals

To meet the needs of working professionals, teaching is delivered in four intensive blocks each year. In year three, students are encouraged to attend the residentials as members of our learning community and work on their dissertations with access to the library, teaching staff. To obtain the MA Chaplaincy Studies, students must complete six taught modules and a 15,000-word dissertation.
